

# wds-m 2017

June 15, from 9.30 am  
ground floor, Karlín bldg.

## Week of Doctoral Students of the School of Mathematics

**What's this?** A meet-and-greet event and a platform for Ph.D. students to present their research to their colleagues.

**A week?** No, worries, we will manage in a day.

**Is it compulsory?** Presenting is compulsory only for students that have WDS as a part of their individual study plan.

**I want to present, what should I do?** Great, just register on the event webpage. The registration closes on June 4.

**Is there going to be a poster session?** Yes, you can have oral and/or poster presentation. If you have a poster from a recent conference, this is a great opportunity to give it a second chance.

**I don't want to present this time, but I want to see presentations of other students.** No problem. In that case, no registration is needed, just show up on Thursday on the first floor.

**I am not a Ph.D. student, can I still come?** Absolutely. WDS-M is open to everybody. We especially encourage Master students to come and discuss with their older colleagues what the doctoral studies at the School of Mathematics look like. And we look forward to seeing the faculty members, too.

The event is co-organized by:

Free refreshments will be provided  
during the whole day.
